S. Hutcheson

DELTA - PROPOSED DRAFT APPLICATION

Attached is a copy of a proposed application for the above-named project. I have proposed to Howard Kothe that a separate application dealing with specific details of the process be prepared, possibly by George Brandt.

If you feel the application is developed to the point that Dr. Seligman would like to read it, please share your copy with him. Understandably the number of copies made is quite limited. I shall hand deliver a copy to Howard as he plans to ~~will~~ be here on Tuesday, February 26.

ch
Attachment (Chris hand delivered already) I told him cover letter to follow.
